Insulated Fire Doors

Underwriters
Laboratories Inc.

Certificate up to
56'x30'

Miami-Dade County
Code Approved
30'x30'

Available Classifications:

3 Hour Approved for insulated fire roll up Doors for Dividing Fire Walls.

Fire-Stop roll-up curtains are constructed of galvanized steel insulated up to 1/2" thick slats, and can be finished with powder coating or baked enamel finishes. The insulated slats have a 1/2" or 1/2" thick mineral wool fireproof or polystyrene insulation (MIAMI-DADE COUNTY APPROVED ACCEPTANCE # 07-1 107.08). Fire roll-up doors are equipped with a 22 gage steel hood formed to fit the contour of the end brackets.

Galvanized end locks or wind locks, 1/4" semi-solid rivets. Our industrial door supports and brackets are all steel plates no less than 1/8" thick. Best's Torsion Counterbalance Assembly is state of the art, providing maximum security and ease of use.

Miami-Dade County High Hurricane Wind Zone available.

Large missile impact tested on both sides.
