

FLORIDA FOLDING GATES

GALVANIZED STEEL

We take pride in our product. Our folding gates are made of **galvanized steel**, not painted bare iron.

The advantages are low maintenance, no flaking paint, no corrosion, no rust, and a high quality appearance.

1 1/2" WIDE STEEL CHANNELS

Our **steel channels** that are **100%** wider than the competition.

Florida Folding Gates, gates are manufactured with **1 1/2 inch galvanized** steel channels.

The competitions are **3/4 inch non-galvanized**.

We give our customer more steel per square foot of gate at a **LOWER PRICE**.

Florida Folding Gates are constructed with Aircraft Quality Zinc Plated Steel Rivets

Other manufacturers use aluminum pop rivets that will come apart and separate with heavy usage. We use **steel** rivets with **Zinc plating** to prevent corrosion and guarantee a longer life span.

STEEL WHEELS

Our **steel wheels** will with stand heavy impacts and heavy continuous use. Our steel wheels will never come apart unlike the common use of plastic wheels on other folding gates.

* **Custom Sized Folding Gates Available Upon Request.**
